
how to do it? it's bad that I'm reverting it so soon I'm on yakkety now and that broke my system :S Hi !info xserver-xorg-video-qxl yakkety xserver-xorg-video-qxl (source: qxl): X.Org QXL driver. In component main, is optional. Version 2:0.3.0-0ubuntu5 (yakkety), package size 12 kB, installed size 98 kB hmm this package not installed anymore? I'm new to irc and to Ubuntu. I'm a PHP developer, recently got a job developing with Python. I'd like to contribute to the community, I can't find much info on how to start doing so. I'm willing to help out. saeed: did you join #ubuntu-devel No, first time, I'm new to this :) saeed: kk saeed: this is the channel where you can talk to developers and give your feedback !contribute To contribute and help out with Ubuntu, see and a good place to start Awesome! I've got some ideas I'd like to implement :) good to hear that saeed, pick something, and start coding. you can send a bug report if there is one I'll start on a Django project saeed, ahh cool, you want to write an app? Not really saeed, python saeed, there are many apps to pick from in the ubuntu repos Would I just write a Django app in PHP? sure saeed: Is your current job something that would interest the open source community? 82157476af
